EDUCATION

2026-28 **MS** in Public Policy & Management - Data Analytics at **Carnegie Mellon University, USA**
2021-22 **Young India Fellowship** (Liberal Studies) at **Ashoka University, India** (GPA: 3.38/4.0)
2017-21 **BTech** in Electrical & Electronics Engineering at **NIT Tiruchirappalli, India** (GPA: 7.5/10)

WORK EXPERIENCE

Strategy & Analytics - Office of the Vice Chancellor Jun 2025 – July 2026
Plaksha University

- Served as **Executive Lead** on two applied **governance projects** with **Invest Punjab**, analyzing administrative data to improve regulatory processes and supporting MSMEs in evaluating AI-enabled interventions
- Drove **cross-functional strategic initiatives** by collaborating with departments and aligning efforts with the university's 5-year plan
- Collected, analyzed, and interpreted **institutional and student-level data** to assess academic performance, student outcomes, and engagement trends; generated insights to inform curriculum planning, student experience, and leadership decision-making
- Drafted and delivered **high-impact communications**, presentations, and **policy documents**, while coordinating with internal teams and regulatory bodies for events and committee operations
- Managed **key stakeholder relationships**, both internal and external, to strengthen institutional strategy, governance, and partnerships

Strategy & Operations - Office of Corporate Partnerships and Careers May 2023 – May 2025
Plaksha University

- **Institutionalised** the Office of CPC, shaping its strategy, operations, and long-term road map for 700+ students
- Orchestrated inaugural placement success, achieving an average CTC of INR 20 LPA and set a national benchmark for emerging universities
- Built and nurtured **partnerships** with 550+ stakeholders, including global corporations, startups, and think tanks
- Designed and gathered **structured feedback from students and recruiters** to improve placement processes and student career outcomes
- Led flagship **industry engagement events** and executed MoUs with marquee organizations such as Volkswagen and Dr Reddy's Laboratories

TEACHING EXPERIENCE

Teaching Assistant – Plaksha University Dec 2022 – April 2023

- **Social Ventures and Technology Disruptions** — *Prof. Seema Bansal, Punjab Development Commission*: Facilitated learning as a teaching assistant for an undergraduate cohort of 60 students, supporting discussions on technology, social impact, and innovation; mentored student teams on project development and provided feedback on assignments and presentations.
- **Entrepreneurial Challenge Lab** — *Prof. Mark Searle, UC Berkeley*: Facilitated learning as a teaching assistant for two postgraduate and one undergraduate cohort, overseeing lectures and team presentations, leading to 30 teams pitching startups on the final day.
- **Design Thinking & Systems Thinking** — *Prof. Panchal & Prof. Kenley, Purdue University*: Provided instructional support, delivered tutorials, exercises, and presentations to enhance innovative thinking and problem-solving for a cohort of 50 students.

Senior Teacher – The Levelfield School, West Bengal July 2022 – Sept 2022

- Taught Mathematics and English to **100 middle-school students**, implementing Cambridge Board pedagogical practices such as Socratic teaching method, structured reasoning tasks, visual and manipulative-based concept building, and continuous skills-based assessments to deepen analytical thinking.

SKILLS

Technical Skills Python, LaTeX, MATLAB, Wolfram Mathematica, R, Canva, Photoshop

LEADERSHIP AND COMMUNITY SERVICE

Student Well Being Committee - *Plaksha University*

Feb 2024 – May 2025

- Contributed to **initiatives focused on student mental health, well being, and community engagement**; collaborated with student leadership and administration to identify gaps in student support systems and recommend interventions.
- Supported **collection and synthesis of student feedback** to inform programming around wellbeing, inclusion, and campus experience.

Chief Editor - *Zeroing In: The Science Podcast*

Jan 2022 – Jan 2025

- Produced **three themed seasons** featuring candid conversations with **leading Indian scientists**; interviewed figures such as Dr. B. N. Suresh (former Director, VSSC) and Prof. Rajesh Gopakumar (Director, ICTS-TIFR).
- Hosted **in-person and online sessions** connecting prominent researchers with **500+ school students** to expand access to scientific careers and ideas.

Core Team - *Girls and Women in STEM, Plaksha University*

Oct 2023 – Present

- Led the **flagship GWiST event**, convening six women leaders to address the gender gap in STEM.
- Contributed to **inclusive university policies**, including anti-discrimination and DEI frameworks.
- Appointed **Convener** of the Internal Complaints Committee and **lead for the PRISM LGBTQ+ Inclusion Initiative**; organised diversity and inclusion workshops for students and staff.

President - *Nakshatra: Astronomy & Science Club, NIT Trichy*

Apr 2019 – May 2021

- Led a **30-member team**, overseeing budgeting, logistics, and execution of events including star-gazing sessions and the construction of a student-built radio telescope.
- Delivered **public lectures and outreach sessions** on astronomy, stellar evolution, and gravitational theory.
- Organized the club's annual astronomy festival, attracting **400+ participants** across multiple events.

Overall Coordinator - *Orientation '19, NIT Trichy*

Apr 2019 – Apr 2020

- Designed and executed a **three-week orientation program for 1300+ incoming students**, focusing on onboarding, community building, and student transition; incorporated feedback loops to improve engagement and student experience
- Directed a **25-member team** to deliver information sessions, onboarding processes, campus immersion, and city-wide field visits to ease the transition into college.

PROJECTS

Simulation and Analysis of Fly-Back Converter for EV Charging - Undergraduate Thesis

Jan 2021 – May 2021

Conducted modelling and simulation of a fly-back converter with power factor correction for **low-power EV charging applications**. Designed and optimized AC-DC converter circuits in MATLAB/Simulink, achieving stable **24V DC and 3A** output. Explored continuous and discontinuous conduction modes to enhance efficiency, isolation, and performance for compact, low-cost charging systems.

IAS Summer Research Fellow, IIT Madras

June 2019 – August 2019

Conducted a theoretical project on modelling gravitational wave signals and estimating parameters of compact binary systems containing neutron stars and black holes. Applied Fisher Matrix and matched filtering techniques to derive system parameters and analyzed detector sensitivity by mapping the **blind-spot regions** of the LIGO observatory.

ACHIEVEMENTS

- Secured the **Runners-up position** at the **MIT Policy Hackathon 2025** for designing an equitable and cost-efficient transit optimisation model.
- Received the **Outstanding Team Performance Award** in the second quarter of 2025
- Received a **fast-track promotion** at **Plaksha University** for driving exemplary student outcomes
- Winner of **Astrophysics Quiz** - Aficionado at IIT Indore
- Selected for the **Summer Research Fellowship** by the Indian Academy of Sciences
- Recipient of the **Award of Academic Excellence** following exceptional Science and Mathematics Olympiad performance
- Recipient of **Merit Certificate** from CBSE for exemplary performance in AISCE 2015
